Institute for a Sustainable Earth

Sustainable Mason

Mason's sustainability efforts transcend classrooms and research centers. We use our campuses as a learning laboratory for positive change.

Our Office of Sustainability, Environment and Sustainability Living Learning Community, Green Patriots, and many others ensure that sustainability is ingrained in our campus life. Our Patriot Green Fund provides financial support to members of the Mason community for sustainability-related infrastructure improvements and research projects. Check out green.gmu.edu for more information on how we are striving towards a Sustainable Mason.

REQUEST FOR PROPOSALS – SEED FUNDING

Goal: to provide seed funding for multidisciplinary teams for new projects in sustainability and resilience that catalyze larger efforts

Number: 4-6 projects

Amount: \$40,000 per project

Period of Performance: 18 months

Date of RFP release: March 15, 2019

Deadline for Submissions: May 15, 2019

RFP Themes: see **Charrette Recommendations**

Priority Given To: Teams engaging students (as GRAs or through experiential learning opportunities or both)

Events to share ideas and form teams in late March, dates TBD

Our aim is to create opportunities for members of the Mason community to put their ideas and inventions into action to support a just, prosperous and sustainable world. We invite all members of the Mason community—and all like-minded organizations—to join us in pursuit of this vitally important mission.
