Announcements

Seed Grants for Living Lab Projects

Mason's Living Lab program continues to support the development of new research and scholarship initiatives. Mason faculty are invited to submit proposals for funding to support research projects that utilize Mason's campuses and socio-environmental systems to develop innovative solutions to local or global challenges and/or advance a novel sustainability-focused research agenda. Proposals will be considered from individuals or teams with a budget not to exceed \$25,000. Proposal Due Date: Apr 25, 2025.

For more information read the [Request for Proposals](#) or contact malila@gmu.edu.

Events

Friday, April 11th, 2025
Merten Hall Room 1204

6TH EARTH SYSTEM OBSERVATIONS AND MODELING GRADUATE SYMPOSIUM

The past, current, and future State of Earth's Climate System

Call for abstracts
Submission deadline: February 21st

The Center for Ocean-Land-Atmosphere Studies (COLA) and the Department of Atmospheric, Oceanic and Earth Sciences (AOES) invites masters and doctoral students from the Mid-Atlantic states to share their research.

Don't have anything to present?
Just come and join us!

Featuring:

- Oral and poster presentations
- Keynote speakers including Randy Koster of NASA Goddard
- Career panel with Earth Sciences professionals

Registration through April 4th.

Contact: esomsym@gmu.edu
AOES Department Website: <https://aoes.gmu.edu/>

Free Online Certificate in **COMMUNICATING SCIENCE FOR POLICY**

Just 5 Hours over 3 Days

including a 1-hour discussion with congressional staff

Apply and learn how to engage decision-makers this summer! Choose one of the training sessions listed below.

During two sessions of 2 hours each, you will learn how to identify what stage a policy issue is in, what your role should be, and how to connect with decision-makers. The trainings conclude with a final hour-long panel discussion with congressional science and technology staff. A pre- and post-survey are required to complete the certificate.

Pick 1 of 4 Training Sessions

June 25 + 26
July 9 + 10
July 16 + 17
July 23 + 24

Eastern: 12 - 2 pm
Pacific: 9 - 11 am

APPLY HERE

Final Policymaker Panel Discussion

July 30 @ 12 pm Eastern / 9 am Pacific
with congressional science and technology staff

Funding Opportunities

Heather's Highlights: Each week we will highlight current funding opportunities, alternating between the six ISE Research Themes.

Research Theme 1: Human Health, Well-Being, and Capabilities

The Johnson (Robert Wood) Foundation has an Evidence for Action: Innovative Research to Advance Racial Equity call for proposals

This call for proposals will provide funding for a cohort of community-led pilot studies to produce new, actionable evidence about how to help medical, social, and public health systems work together to address forms of systemic racism.

Application Due Dates: June 4, 2025

Funding Amount: varies

Research Theme 2: Sustainable and Resilient Communities and Ecosystems

The Burroughs Wellcome Fund is now accepting applications for the Climate + Health Excellence (CHEX) Centers opportunity.

The Burroughs Wellcome Fund announces the Climate + Health Excellence (CHEX) Centers award. This is a new institutional research and training opportunity that will help institutions bridge the gaps between fields that will have important roles to play in understanding the impacts of climate change on human health and diminishing their effects. This grant will support new discover toward defining the health impacts of climate change, developing potential interventions, translating discovery science into practical application, and outward-facing work that can help public understanding of Climate + Health or strengthen connection between research and communities whose health has been harmed by climate change.

Application Due Date: August 7, 2025

Funding Amount: \$10,000,000

Research Theme 3: Harnessing the Digital Revolution for Sustainability and Education for All

The National Endowment for the Humanities has issued a grants notice for the Digital Humanities Advancement Grants

The National Endowment for the Humanities (NEH) Office of Digital Humanities is accepting applications for the Digital Humanities Advancement Grants program. The program supports work that is innovative, experimental, and contributes to the critical infrastructure that underpins scholarly research, teaching, and public programming in the humanities.

Application Due Date: May 22,2025

Funding Amount: \$350,000

Student Opportunities

Research and Engagement for Action on Climate and Health (REACH) Center Climate and Health Research Fellowship

The REACH Center Climate and Health Research Fellowship is now accepting applications for the 2025 cohort! This fellowship is designed to support outstanding students who demonstrate academic excellence, have a strong interest in community-engaged work, and show a deep commitment to advancing health and environmental justice through equitable climate solutions. The program provides an enriching experience that includes mentorship, professional development, and financial support to help students achieve their goals.

Next Generation Fellows

The UCAR Next Generation graduate Fellowship is a prestigious, multi-faceted opportunity to explore the interplay between the areas of Earth System Science research and its impact on society. Fellows engage with, and learn from UCAR's experts while participating in dedicated professional development and leadership training opportunities.

Each Fellow receives a \$40,000 Fellowship over two years (\$10,000 twice per year); Fellowship Visits that entail up to 20 weeks of paid research trip to Boulder, Colorado or Washington, D.C. or other agreed upon location; funding to attend conferences, professional coaching; and the support of a like minded cohort.

The primary goals of this program are to facilitate engaged, motivated "Next Generation" students in exploring the intersections between science and society, and to support Fellows in becoming future leaders in the field of atmospheric and Earth System Sciences.

2025 VASG Chesapeake Bay Commission Commonwealth Fellowship

Virginia Sea Grant and the Chesapeake Bay Commission seek a graduate-level fellow for a one-year placement in the CBC Annapolis, MD office. The fellow will work under the guidance of the Commission's Executive Director and Administrative Officer, with opportunities to support the Virginia, Maryland, and Pennsylvania Directors. This position offers the opportunity to be at the intersection of science and policy, at the state, regional, and federal levels, on issues of concern to the Commission's member jurisdictions when it comes to the health of the Chesapeake Bay and its watershed.

The Chesapeake Bay Commission is a tri-state, bi-partisan body that works predominantly with the legislatures of Virginia, Pennsylvania, and Maryland to develop sound policies and laws related to the Chesapeake Bay. The Commission provides information and advice on Chesapeake Bay issues to the members of these three legislatures and works interactively with executive branch leaders and agencies of all three states. As a signatory to the Chesapeake Bay Agreement, the Commission is fully involved in the work of the Chesapeake Bay Program partnership and advises Congress on the needs of the Chesapeake Bay restoration effort.

The E-Team Program, part of the VentureWell Accelerator, supports student ventures as you embark down the path you're likely to take as an innovator and entrepreneur. We help you advance your invention through a powerful mix of up to \$25,000 in grant funding, entrepreneurship training, mentorship by dedicated staff, national recognition, and networking with peers and industry experts.

Do you have an idea that can change the world? Every year, we award over \$800,000 in non-dilutive E-Team grants to early-stage innovator teams that develop scalable innovations which aim to solve a large social, health, or environmental challenge.

The Institute for a Sustainable Earth (ISE) aims to connect members of the Mason community with others across the Mason community—and with other communities, policy-makers, businesses and organizations—so that, together, we can more effectively address the world's pressing sustainability and resilience challenges.

The ISE Newsletter provides up-to-date information on conferences, funding opportunities, and research pertaining to environmental science and sustainability. The biweekly newsletter aims to facilitate information sharing among researchers, practitioners, and relevant local, national, and international organization.
